Education

Mumbai University

Bachelor of Information Technology

Sep. 2014 – May 2019

Mumbai, Maharashtra

Experience

IBM

Senior Application Developer

May 2024 – Present

Mumbai, Maharashtra

Working on a scalable, customer-centric financial platform that allows users to access loans, investments, and other financial services.

- Spearheading frontend development using React.js, Redux, and Tailwind CSS.
- Implementing secure authentication workflows tailored to user-specific access.
- Integrating third-party payment gateways such as Camspay and PayU for seamless digital transactions.
- Leading a team with a 50/50 split between hands-on coding and project coordination.
- Driving adherence to scalability and security standards across the application lifecycle.
- Conducting code reviews and mentoring junior developers to uphold high-quality standards.

Wohlig Transformation Pvt. Ltd.

Senior SDE

Sep. 2023 – Apr. 2024

Mumbai, Maharashtra

Delivered robust frontend solutions for enterprise clients in the health insurance brokerage space.

- Built full-scale dashboards using Vue 3, Bootstrap, and PrimeVue, delivering responsive and scalable UI components.
- Upgraded legacy components and features using React.js and Tailwind CSS to improve performance and maintainability.
- Implemented a mentorship program for five junior developers that focused on React.js and Vue 3 best practices, leading to all mentees achieving positive performance reviews and faster onboarding.
- Maintained strict adherence to sprint timelines while ensuring clean, modular, and reusable code.
- Collaborated closely with designers and backend teams to implement seamless UI/UX and drive successful feature rollouts.

Media.Net Software Services (India) Pvt. Ltd.

UI Developer

Jan. 2019 – Sep. 2023

Mumbai, Maharashtra

Led UI development and automation initiatives for ad-tech and internal platforms.

- Developed an automated HTML/CSS generator using JavaScript, reducing design-to-code turnaround time significantly.
- Engineered a PHP and Google Sheets API-based automated mailer system to streamline internal communications.
- Defined and enforced frontend coding standards; conducted team-wide knowledge-sharing sessions.
- Mentored junior developers and coordinated with business stakeholders for daily deliverables.
- Designed and launched responsive WordPress websites, ensuring cross-browser/device compatibility and performance.
- Built internal dashboards and tools using Vue.js, Tailwind CSS, and React.js, improving HR and project workflows.
- Delivered weekly feature enhancements for premium clients with consistent code quality and fast iterations using Git.
- Managed end-to-end frontend development cycles under tight deadlines with a focus on UX excellence.
